

REIMAGINING COMMUNITY INCLUSION

Regional Consultations

The Ministry of Social Development and Poverty Reduction is creating a 10-year vision for community inclusion in British Columbia.

Are you a self-advocate, family member, care-giver, or service provider?

We invite you to join a conversation about improving supports and services for individuals with intellectual disabilities over the next ten years. This is an opportunity to share information about your needs, as well as your ideas for positive changes in the future.
